

Magic bullet theory

Contradiction—limited war to eliminate bin laden, the terror network and the taliban— as already shown it going to take a lot of bombs and force to do that; other countries Consequences of that course are very dangerous; devastated country with budget of 84 million dollars

1. **creating the terrorists that will kill our children**: make us less safe—create more terrorists: 50,000 in Pakistan; killings in the church; 5,000 new fighters; Indonesia—sweeps; coke plant in southern India—every muslim country
2. **destabilize countries** that will lead to a wider war and make us much less safe—Pakistan—nuclear weapon; Egypt, Saudi Arabia; Pakistan—India-kashmir
3. **not eliminate terrorism; not even bin laden or this network**
4. **deals for fig leaf coalition**—oman; Pakistan; Indonesia; overlook Chechnya—visit on their people and us ; TJZ BELGIUM - torture; secret; MUSUM perseeds
5. **inflamed by the innocents** being killed—towns, red cross, yest. A red crescent hosp.
6. **refugees—7.5; UN 100k children**; borders sealed; we do nothing
7. **what are we left with**—northern alliance and more war fare — Pash / m or South / M
7. **since when faith know what country is doing**—who is running it—iraq, central America, why think moral restraint - So. Cene
7. **evidence issue**
8. **result in more us bases, more support of dictators and more terrorists**
9. war plays into hands of a civilizational war

When have consequences like this and potential—other solutions

Negotiation: Taliban again made the offer--)

Part solution—UN—go to legal instit. set up for this but avoids most or lessens most of the problems I have referred to—Falk said ness for Kuwait why not ness here

1. call it a **crime against humanity**--advantage
2. go to UN est. **international court to try**—investigate, arrest and prosecute; alternative court such as Lybia—
3. if fails—UN **police force to arrest**—no need go that far

Longer term—falk says **not examine these now**

1. **isolate the taliban**—Pakistan and Saudi Arabia; US
2. **address problems in mid east**: resolve Palestine Israel, troops in Saudi Arabia; propping up corrupt regimes and eliminating democrats; atrocities with out weapons--sabara
3. Broader—**stop acting unilaterally as we are here**—ist; join and engage in the international community: --ICC; anti-terrorism treaties; biological weapons protocol; Kyoto
4. **weapons sales—and terror we carry out or with our weapons**
4. **more just and equal world—**
