Thanks  
Jeff Lynne - Mumia-- Pam--- Barbara Lubin---  
Thrilled to be here--

① - All at an edge -  
② -> central nature of our work  
③ - impt of struggle  
④ - what achieved provd to std. w/ G. Mumia case.

--Some are pessimistic--I am not--  
--Not about lynne not about mumia not about panther 8 not about gitmo--  
-I am angry--but understand struggle it takes to win these battles- and what their persecution represent about this county---  
what mlk triplets of racism extreme materialism and militarism--  
---and I should also say--the lashing out of a declining empire---(military and exec)  
(terrify us--impose their will)

--but it is a time of hope--illustrated by the struggles we are here to talk about--  
--help us understand what we have achieved---and impt of public opposition and mass movements---

STAND Behave Oppressed - Oppressor 1.

Lynne---on one hand ---not good---impt lawyer---out of where she did best; personal---  
Post 9/11 poster lawyer---Ashcroft intimidate lawyers---understood stand between  
the oppressed and the oppressor--did not work--600-

Still facing 28 months---

But a measure of her victory---she is with us today---courage---

Measure is govt 30 years---less then a month for each ---

Measure is judge recognized the impt of her work---1000s of letters

\* Appeal---not over---stop the govt and ultimately---get her back to work---  
Testament to our power---

STOPS

And of course Mumia---25 hard years on death row and in isolation---  
But look what he has done and the leadership he has given to our struggle for his vindication and that of the oppressed everywhere---he never lost hope

Voice of the voiceless---

If authorities in Pa had there way he would not be with us today---

But once again the peoples struggle

Not over---momentous moment coming up---

That could tell us whether Mumia lives or dies or spends the rest of his live in jail---

You have all made a difference so far---must continue----

I am confident but only to extent the outcry continues----

Mumia of course writes about how torture did not begin with the so called wot-guatnamamo, abu Gharib and Bagram---and we all know it did not---

Familiar with v-n; soa; kubark---

Mumia talks about a case we are sadly becoming familiar with --the panther 8 recently arrested here for alleged murder in the 70's---

Personal experience---one of the lawyers---in 1976---

There for the testimony of ruben scott---new Orleans---cattle prod---blankets water---

A shadow of a man---NY position---we did not do it---new Orleans cops did

No accountability---

Arar

(reminds you of arar and rendition to Syria—they did it— not US-out sourcing torture)

No US, no

Will they try and use this so called tortured evidence---nothing surprise—as think they can in gitmo---

Panther 8---beginning of the struggle---

Program from new Orleans to gitmo---moving----- / / / /

Sweet Gitmo

Which brings us to what I broadly call Gitmo---or the so called GWOT--- Gitmo just a shorthand----for violation of fundamental protections for human beings—protections earned and fought for over hundreds of years

What is special now; what is to me unique---is the open and notorious nature of what is being done; not embarrassed by it---proud of it---

Special Now

The fact that there is a torture program and public polices reflect that—approved at the highest levels of our government---

Pundits judges and others debate it---accepted as ok if not ness--- Arar - 67

The fact that it is bragged about and torture is made fun of—cheney talking about the dark side; treating waterboarding as a little dunk in the water; bush about certain methods being necessary---

The fact that as a policy and practice it is carried out on a mass scale---at gitmo, in iraq and in Afghanistan

And the fact that impunity---

And fact a congress done little or nothing about stopping it---amnesty---

Lynching Torture

What is US doing: (A message of terror to Muslim world) lynching---

why do it does not work

1 Torture does not stand alone---part of a series of illegal unlawful immoral practices--- in wot---

Foundation of a Police State

Practices that I believe are the foundation of a police state---no check on power---

2 Off shore penal colonies/detention without trial—gitmo---bagram---iraq---devils islands---Secret sites---majid khan---detained forever

3 Kidnapping---rendition--- all over world---arar

4 Trials—kangaroo---if they do them

Big Operation Condor---

(of course others you are familiar with others --- (roundups/wiretap unwarranted criminal pros) --- OSINT search - so BRANNON

Admin a clear roadmap of the police state---

Look at in a little more detail

Foundations of a police state---

Foundations of a police state

CC

non-citizen

Detention without trial

Keys---military order number 1---still there---pick up anyone in world and hold without trial or lawyers---no access---magna carta--- (torture)

--Gitmo begins---where can they put the people---need a place with no court ---

Law free zone---

First case no one take small group hate mail represent families

Worst of worse

Won in s ct in 2004---have legal rights---habeas--- RASUL

What does that mean?

Bush admin not happy---

Lawyers there---torture

600 hundred----

Lawyers + torture

How people picked up---and who the leaflet rendered on way to gitmo

How there

Bush to congress and dta --- PTA

Again s ct 2006---

Again right to habeas---

Again to Congress---one part of MCA---confirmation of police state by congress:

Strips habeas from any non citizen---even perm residents-- designated as enemy combatant---govt asked gitmo cases dismissed----

MCA STRIPS HABEAS

Circuit 2-1 decision

Mca Allows US citizens designated---habeas---ask jose Padilla what it has done---

Today---almost 6 years litigation again--- Circuit 2-1 decision

New prisons---some of the worst camp 6----

Still the 395 never a fed hearing---

Number released

Even US almost 90 innocent yet no where to send them----

Attack on the lawyers---stimson

Why a police state? What else would you call it?

But in some way a diversion---Bagram no access---

Aspect 2—what happens in off shore without habeas and rights

Torture--- first heard a few articles---dana priest

Tipton---story---march 2004---

Unraveled---abu gharib

Not a few bad apples----

Investigations---down

Prosecutions down

All to prove---not up---

But its there---the road map---

Wilkerson called a cabal---cheney Rumsfeld etc---new paradigm

CASAL

Yes---but others went along and cong to this day has not stopped---

No hearing - mca: narrow definition use of evidence still secret sites ; ban law suits

NO Habeas---major problem.

AGAIN NORMAN

# ( we have another problem )

Memos: **Jan 2002—Gonzales** (back upped by yoo)? We have a problem memo—  
Geneva and US law make aggressive interrogation (inhumane) criminal—war  
crimes

In future some prosecutor may go after us---

So what is answer---just say Geneva non apply then US crim law not apply---

Based on that **Feb 7-02—spirit of Geneva unless military ness and Geneva not apply**  
to al qaeda---

# we have another problem.

Then ---**August 1, 2002 memo—Yoo Bybee** these are the law for exec branch---

Balking at cia etc---worried—not just a Geneva problem—

**CAT—Torture statute problem---**

How to make legal what was flatly illegal---

Torture defined so narrowly that even most egregious conduct not torture—organ  
failure---

NARROW

NAT'l Sec Defense  
app.

Even if torture a defense: pinochet in name of national security---or

Necessity defense-----

What followed: Rumsfeld techniques in gitmo—al qahtani---

Then to Iraq and Abu Gharib---

Secret CIA sites—water boarding Henry Alleg

Rumsfeld  
IRAQ  
CIA sites

Why—if it does not work----terror---vengeance---

So a clear map---and govt officials and former govt officials who should be tired

Yoo bybyee -- Argument just a legal memo---unwarranted arguments with foreseeable  
consequences---

Came in a context---where knew the results—

Argue really believes legally president that power—problem is unlawful---

No accountability except lower down---

Aspect 3

Extraordinary Rendition ---disappearances—condor---

What is it---kidnapping---snitch a person—anywhere in world---and take them --

Choices---US Gitmo bagram secret site or another country---

Could be anyone---US citizen or not---

Then what I have told you before---no chg, lawyer or trial---disappeared

And of course Torture---majid khan----

Gitmo people—Egypt--

3 you may know---arar el masri and egyptain cleric—osama nasr---

Arar—story---watch list - 9 million

May be hundreds---

Europe in uproar-- European parliament

Italy---25 agents

Germany—el masri

Spain---majorca

Fight back-----

Aspect 4 - if ever try a person--Military Commissions--special trials---

MIXED UP

No one tried---

6 years an illegal method---regularly const tribunals---

S ct said no---

Mca---evidence from torture and coercion---

4 together

Look at 4 together: pick up anywhere in world outside of law take them to place outside of law torture them and keep them forever and if tried kangaroo ct----  
What say about authority under law?

Finally address

The amnesty problem---

Accountability - act performing

No investigation or prosecution thought had protection

BARROWING

Hamdan and application of Geneva-----

All of a sudden criminal

MCA amnesty----

We must break it-----

1. Europe has begun:--italy <sup>NASA MASSA</sup> cia and segrena germany spain  
Mumia street

2. civil cases here---

3. growing impeachment movement----no issue----

subvent

4. criminal case in germany----univ jurisdiction---Rumsfeld
